LUMINESCE® FLAWLESS SKIN BRIGHTENER

FLASHWHITE UNISPHERES

White beads made of titanium dioxide and other natural extracts, including vitamin C-rich cucumber and lemon extract, to maximize the lightening action over time.

- ➔ Instant luminous effect on skin

ASCORBYL GLUCOSIDE

Derived from a natural vitamin C and stabilized with glucose, which is more soluble than natural vitamin C, it promotes collagen among other healthful benefits.

- ➔ Reduces the appearance of pigmentation in age spots and freckles
- ➔ Lightens overall skin tone
- ➔ Reduces the appearance of fine lines and wrinkles
- ➔ Promotes supple-looking skin
- ➔ Brightening

VEGELURON GEL (EXTRACT OF TREMELLA FUCIFORMUS)

Cultivated in China and used in anti-aging products and cuisine. Also known as silver ear or snow ear. Used in facial skin care dating back to the Tang Dynasty. Also known in Japan as "Shirokikurage".

- ➔ Equal to or better than hyaluronic acid
- ➔ Hydrates and moisturizes skin

NIACINAMIDE

Niacinamide is a form of vitamin B3.

- ➔ Helps keep skin moisturized
- ➔ Lightens the look of age spots
- ➔ Brighter-looking skin

NEUROBIOX (EXTRACT ACHILLEA MILLEFOLIUM)

Achillea Millefolium is commonly known as yarrow, a flowering plant in the family Asteraceae.

- ➔ Smooths the look of wrinkles, much like glycolic acid or better
- ➔ Rejuvenates and softens the look of skin
- ➔ Evens the look of skin tone
- ➔ Refines the look of pore size

TRANEXAMIC ACID

A derivative of the amino acid lysine.

- ➔ Lightens the look of overall skin tone

LUMINESCE® FLAWLESS SKIN BRIGHTENER

FREQUENTLY ASKED QUESTIONS

Q. What are the white specks in the product?

A. The Flashwhite Unisphere ingredient in the formula is the white particles made of titanium dioxide and other natural extracts that help to brighten the skin. These beads assist in the delivery of two natural extracts, vitamin C-rich cucumber and lemon extract, to maximize the lightening action over time.

Q. What is titanium dioxide, and how does it work in this formula?

A. Titanium dioxide is a whitening pigment, and the beads contain a high concentration of them. It instantly brightens the complexion and evens the appearance of skin tone.

Q. Why does the product sometimes leave a white streak on my skin?

A. You only need a very small amount, and you should massage it into the skin until the white disappears. If there is a residue, try using one pump of the product and thoroughly massaging it into the skin.

Q. Can I use this product if I have dark skin?

A. Yes, Luminesce flawless skin brightener is for all skin tones and skin types.

Q. Should I continue using this product if I have already seen the desired results?

A. Because of environmental factors, and to maintain your results, it's best to continue using as directed.

Q. Will this skin brightener lighten freckles?

A. Yes, the product can lighten the appearance of freckles.

Q. Does it take longer for older age spots?

A. The darker the age spot, the longer it will take to lighten the appearance of age spots.

Q. Are there any harsh chemicals in the formula?

A. There are no harsh acids or chemicals in this product.

Q. Can all skin tones use the Luminesce flawless skin brightener?

A. Yes, flawless skin brightener is for all skin types and skin tones.

Q. Do I use the flawless skin brightener before or after the cellular rejuvenation serum?

A. Apply flawless skin brightener after the serum. See the following directions.

DIRECTIONS: Lather face with LUMINESCE™ youth restoring cleanser. Rinse and pat dry. Apply Luminesce cellular rejuvenation serum. Apply one pump of Luminesce flawless skin brightener gel to your fingertips. Dab gel on areas of focus and then massage evenly over entire face in a circular motion until dry. For maximum results, use morning and night. Always use sunscreen. Follow with Luminesce daily moisturizing complex with Broad Spectrum SPF 30 (day) and Luminesce advanced night repair (night).

Q. Can I use the product more than once a day?

A. Yes, it is recommended to use twice a day, in the morning and evening.

Q. If I use it on my hands, how long does it take to absorb before I can wash my hands?

A. Wait to wash your hands until after the product dries, or wait five to ten minutes.

Q. Do I need to use sunscreen when using this product?

A. The product will not make your skin more sun sensitive. However, for maximum protection against harmful rays, you should always use sunscreen to protect your skin from the sun.

Q. How long will it take to see results?

A. It typically takes 4–6 weeks to notice a change, with best results noticed in 3 months.

Q. Can I use this product with Retin-A or retinol?

A. Yes.

Q. Can I use it as a spot reducer and only use it on the spots I want to lighten?

A. Yes; however, it is most effective when using it on your entire face.

Q. Will this product reduce the redness from acne scars?

A. This product is not formulated to treat acne, but we recommend using the entire Luminesce line for beautiful skin.

Q. Can I use it on any area of my skin I would like to lighten?

A. Yes, you can.
